

FEMA

Lunch and Learn:

Update on the Decommissioning of FEMA's DFIRM Tools

July 19, 2010

Today's Agenda

- Speaker Introductions and Housekeeping (5 minutes)
- Objective of Today's *Lunch and Learn* Session (5 minutes)
- Update on the Decommissioning (10 minutes)
- Open Forum for Questions/Answers (30 minutes)
- Resources Available (10 minutes)

Speaker Introductions

- Mary Jo Mullen, FEMA Headquarters
Project Manager for the Decommissioning of the DFIRM
Tools
maryjo.mullen@dhs.gov
- Howard Davis, CDS
GIS Manager
howard.davis@riskmapcads.com

Housekeeping Items

- Please put your phone on mute!
- Please disengage the line if you need to take another call – do not put on hold!
- Questions are always welcome – speak up and ask!

Objective of *Lunch and Learn*

- The objective of today's *Lunch and Learn* session is to provide mapping partners with a final opportunity to ask questions about the decommissioning of the DFIRM Tools and/or how to migrate projects out of the Tools.
- No other *Lunch and Learn* sessions are scheduled as the Tools will be shut down July 31.

Activities Performed To Date

- Announced FEMA's intention to decommission the Tools
- Coordinated with FEMA's Risk MAP contractors to discuss technical solutions and manage the removal of study data from the DFIRM Tools environment
- Created and posted FAQ list and user guidance document
- Held monthly *Lunch and Learn* sessions
 - Perspective from mapping partner who does not use the DFIRM Tools
 - Possible alternative tools available –FMD9
 - How to export data using tools built into DFIRM Tools
 - Open Call

Update on the Decommissioning

- All available information about the decommissioning is posted to the MIP Web site under *News and Highlights*
- Two final e-mail reminders about the decommissioning will be sent out on July 23 and on July 30
- JTX jobs status update as of **July 16**:
 - **198** jobs in the Tools that are not scheduled to go effective until after 7/31/10
 - No information that any additional jobs have had their LFD dates delayed

Update on the Decommissioning

- Jobs can be removed by exporting the data and copying the information using Citrix. Please contact MIP Help if you have any questions.
- No new LOMR jobs should be opened using the Tools.
- Any mapping partner that foresees issues with removing their jobs from the Tools should contact Howard Davis for technical issues or Mary Jo Mullen for any contractual issues.
- There will be an unspecified period of time after the DFIRM Tools are decommissioned on 7/31/10 where it will be possible for MIP Help to export study data, but all attempts should be made to export the data before the deadline.

Questions?

Resources Available

- For MIP technical assistance or questions, please contact MIP Help at miphelp@riskmapcds.com
- Outreach and guidance related to the decommissioning of the DFIRM Tools is posted to the MIP Web site, <https://hazards.fema.gov>, under the *News and Highlights* tab
