|    | Map Viewer.....            | 1 |

## 1. Introduction

The Service Pack 13n Release Notes contain helpful information for the Mapping Information Platform (MIP) user community regarding the contents of this service pack. This document provides users with detail relating to the new enhancements, known as change requests (CRs), to the MIP. To review the individual CRs found in MIP Service Pack 13n, please review *Section 2* of this document. Please note that certain CRs affect more than one function (such as Amendments, Revisions, and Studies) and may be listed multiple times.

For reference, the MIP team has identified each CR by a specific number. If you have more questions about a specific CR, please contact MIP User Care ([miphelp@mapmodteam.com](mailto:miphelp@mapmodteam.com) or 1-877-FEMA-MAP). In your request please provide the CR number, Service Pack number (Service Pack 13n), and reference this document.

## 2. Service Pack 13n CRs

### Map Viewer

#### *CR 10982*

The Refresh Button was moved to a more visible location at the top of the screen. This CR was implemented at the request of many users.
