

Work Instruction
Process Admin Tool for
Amendments, Revisions and
Studies Projects

Purpose

The purpose of this work instruction is to outline the functionality available in the Process Admin (PA) tool, including:

- Search for a project
- Open the Workflow History
- Change a project status
- Unclaim an activity
- Transfer an activity
- Update project data

The steps outlined in this work instruction are applicable for Studies, Revisions and Amendment projects, except to update project data.

For information to update Revisions and Amendments projects, refer to work instruction steps 41-55. For information to update Studies projects, refer to work instruction steps 51 to 90. For more information on the Process Admin tool for Studies projects, refer to the Studies Process Admin quick reference guide (QRG).

Prerequisites

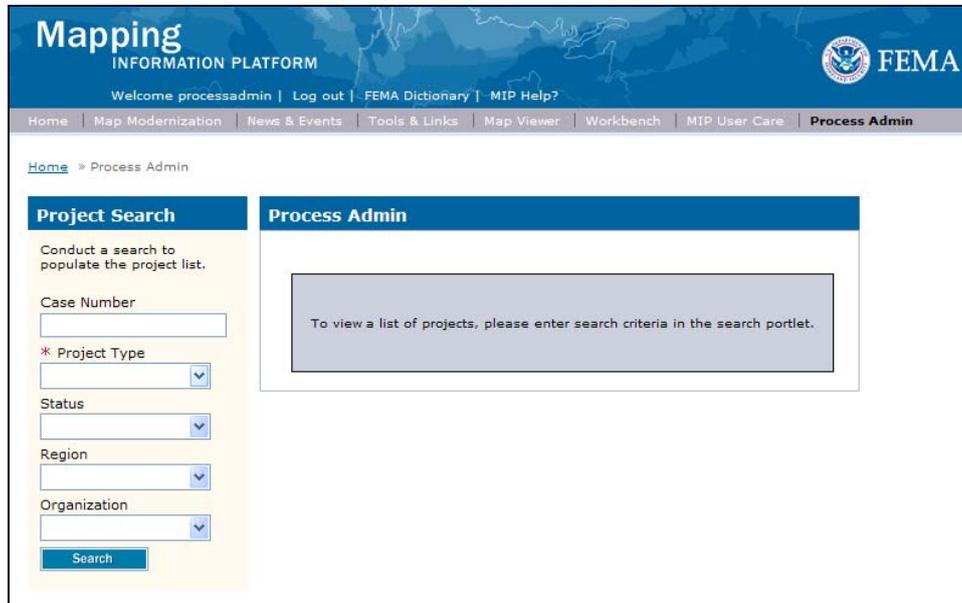

- A Studies, Revisions or Amendments project has been created in the MIP
-

Navigation

Via Menu Path	Log in to the MIP → Process Admin
---------------	--

Work Steps

1. Log in to the MIP and click the  tab

There are three ways to search for a project:

1. Use the dropdown boxes to filter for a set of projects
2. Enter part of the case number (wild card) to filter for all cases that include the specific text
3. Enter the full case number

The first section of the work instruction outlines the steps to search for a project using the dropdown boxes to filter for a set of projects.

To search for a project using the dropdown boxes:

1. Select the Project Type (required field)
2. Select the Status
3. Select the Region
4. Select the Organization
5. Click Search

2. Click the Project Type dropdown box and select the applicable option

	<p>Project Status Options:</p> <p>Active - An in-progress project anywhere in the workflow.</p> <p>Closed/Terminated - A project that does not continue processing through the workflow. The case is terminated somewhere in the workflow.</p> <p>Completed - A project that has gone through the workflow from beginning to end (all workflow steps are completed).</p> <p>Inactive – Only applicable to Revisions and Amendments projects, when a project has yet to be assigned a project resource or the project is awaiting requested data and/or fees.</p> <p>On-hold – Only applicable to Studies projects, a temporarily removed project from the Work Item List. On-hold projects are included in KPI 1 and 2 calculations (if there are actual and/or projected dates in the MIP).</p> <p>Suspended – Only applicable to Revisions and Amendments projects, a project is suspended due to data and/or fees or a violation.</p> <p>Withdrawn - A project that does not continue processing through the workflow. The case is terminated somewhere in the workflow because the requester wishes to withdraw their revision request.</p>
---	---

3. Click the Status dropdown box and select the applicable option
4. Click the Region dropdown box and select the applicable option
5. Select the Organization dropdown box and select the applicable option
6. Click on:  to start the search

Organization

Process Admin

To view a list of projects, please enter search criteria in the search portlet.

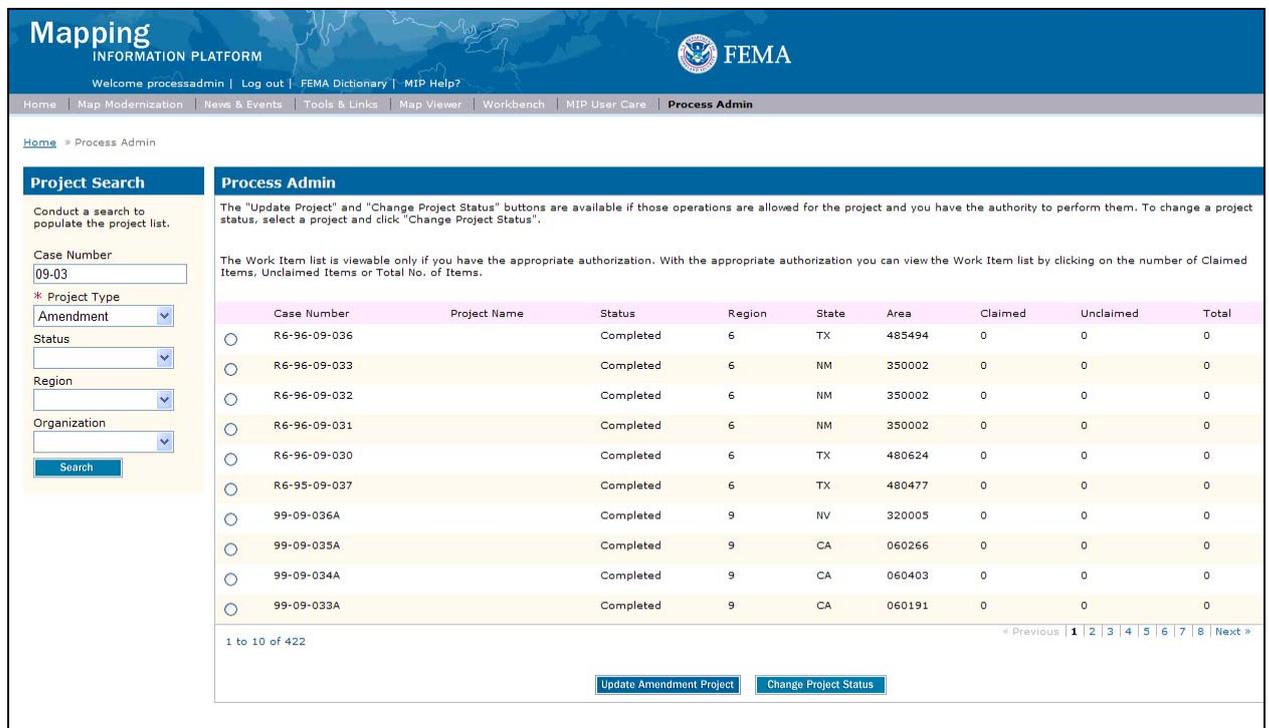

To search for a project using the wild card search:

1. Enter part of the Case Number
2. Select the Project Type
3. Click Search

This is considered a wild card search and the MIP will search for any projects that include the text string.

8. Enter part of the Case Number
9. Click the Project Type dropdown box and select the appropriate option
10. Click on:  to view a list of projects that include a partial case number

The screenshot shows the 'Process Admin' section of the Mapping Information Platform. On the left is a 'Project Search' form with fields for Case Number (09-03), Project Type (Amendment), Status, Region, and Organization, along with a Search button. The main area displays a table of projects with columns for Case Number, Project Name, Status, Region, State, Area, Claimed, Unclaimed, and Total. Below the table are buttons for 'Update Amendment Project' and 'Change Project Status'.

Case Number	Project Name	Status	Region	State	Area	Claimed	Unclaimed	Total
R6-96-09-036		Completed	6	TX	485494	0	0	0
R6-96-09-033		Completed	6	NM	350002	0	0	0
R6-96-09-032		Completed	6	NM	350002	0	0	0
R6-96-09-031		Completed	6	NM	350002	0	0	0
R6-96-09-030		Completed	6	TX	480624	0	0	0
R6-95-09-037		Completed	6	TX	480477	0	0	0
99-09-036A		Completed	9	NV	320005	0	0	0
99-09-035A		Completed	9	CA	060266	0	0	0
99-09-034A		Completed	9	CA	060403	0	0	0
99-09-033A		Completed	9	CA	060191	0	0	0

Note there may be multiple pages of projects.

11. The MIP displays a list of projects that fit those criteria.

The next section of the work instruction outlines the steps to search for a project using a full project number.

The screenshot shows the 'Mapping INFORMATION PLATFORM' interface. The top navigation bar includes 'Home', 'Map Modernization', 'News & Events', 'Tools & Links', 'Map Viewer', 'Workbench', 'MIP User Care', and 'Process Admin'. The 'Process Admin' section is active, showing a 'Project Search' form and a 'Process Admin' panel. The 'Project Search' form includes fields for 'Case Number', '* Project Type' (dropdown), 'Status' (dropdown), 'Region' (dropdown), and 'Organization' (dropdown), with a 'Search' button. The 'Process Admin' panel contains a message: 'To view a list of projects, please enter search criteria in the search portlet.'

To search for a project with the full case number:

1. Enter the Case Number
2. Select the Project Type
3. Click Search

Note: the Case Number field is case sensitive.

12. Enter the exact case number
13. Click the Project Type dropdown box and select the appropriate option
14. Click on: 

The next section of the work instruction outlines the steps to open the Workflow History.

[Update Amendment Project](#) [Change Project Status](#)

15. Click the Project Name link to open a new Workflow History window

Workflow History for case 09-03-0144A

- Administer Fee
- **Assign Project Resource**

Assign Project Resource

Role: Amendment Resource Manager
 Organization: Assigned
 Description: This activity is performed by a Resource Manager after the project has been created. The Resource Manager selects a Workgroup and a Resource Name. The Resource Name is the Task Lead that the project is assigned to. That Task Lead will be responsible for all iterations of the Review Data Received, Process Request, and Distribution activities for the project, unless the project is Reassigned to another Task Lead using the Process Administration tool. When the Assign Project Resource activity is completed the project moves to the Review Data Received activity.

This activity is available to the following users:
 KateAMResMgr
 SumanBiswas
 cjacksona1
 dmmumerta1
 hendrasugianto
 kbrooks1
 miptestrpt02
 sgraya1
 tpham
 as of 02/23/2009 at 11:38:07 AM.

Possible next activities:

Task: **Review Data Received**
 Role: Assigned Task Lead
 Organization: Assigned

+ denotes claimed activities.
 - denotes unclaimed activities.

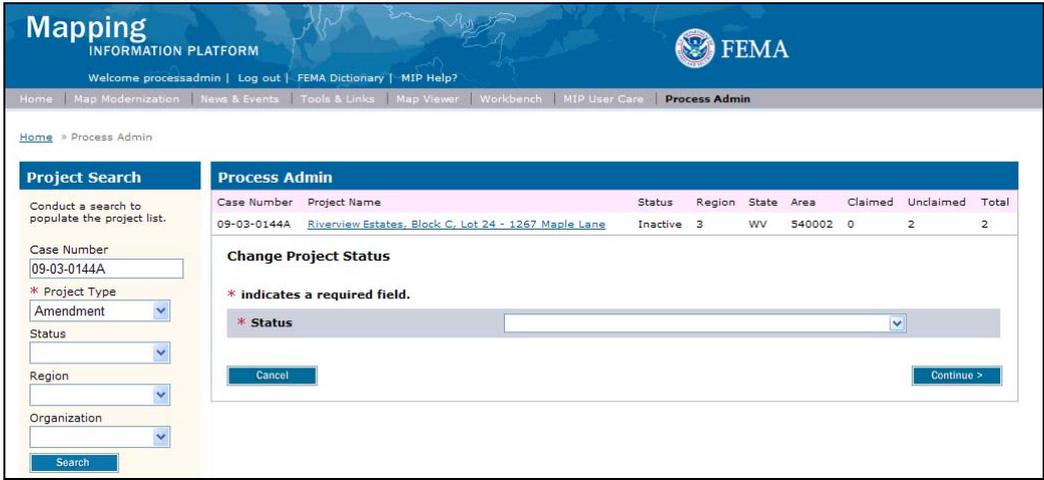

16. A new window opens with the workflow history.

The next section outlines the process to change the project status.

17. Click the radio button next to the case number

18. Click on: 

Project Type	Status Options and Definitions
Amendments or Revisions	<p>Withdrawn - A project (case) that does not continue processing through the workflow. The case is terminated somewhere in the workflow because the requester wishes to withdraw their request. The project will still appear in reports so that its history can be reviewed. These cases will have a reporting status of Closed.</p> <p>Removed - A project (case) that should not exist in the workflow and does not appear in reports. The project is manually terminated by Process Admin or MIP Help. An example would be if Project Admin opened up a duplicate case, the duplicate would be closed and have the status Removed.</p> <p>Closed - A project (case) that does not continue processing through the workflow. The case is terminated somewhere in the workflow for reasons other than Withdrawn. The project still appears in reports so that its history can be reviewed. The reporting status of Closed includes cases with the status Suspended, Withdrawn, and Closed/Terminated.</p>
Studies	<p>On-hold - A project that is temporarily removed from the Work Item List. On-hold projects continue to show up in reports and are included in KPI 1 and 2 calculations (if there are actual and/or projected dates in the MIP).</p> <p>Closed - A project that does not continue through the workflow process and is terminated somewhere in the workflow. A closed project will still show up in reports so that its history can be reviewed. If there are actual preliminary and/or effective dates associated with a closed project they will be included in the actual KPI 1 and 2 calculations.</p>

19. Click the Status dropdown box and select the appropriate option

	<p>Click Cancel to not save any entered data and return to the previous screen.</p>
---	---

20. Click Continue to move to the Review Changes screen

21. Click to enter required Change Notes
22. Click Continue to move to the Complete screen

Updates are not saved until you click Complete.

23. Click on: Complete to save changes

The next section outlines the process to unclaim an activity.

24. Click the numbered link in the Total column

The "Update Project" and "Change Project Status" buttons are available if those operations are allowed for the project and you have the authority to perform them. To change a project status, select a project and click "Change Project Status".

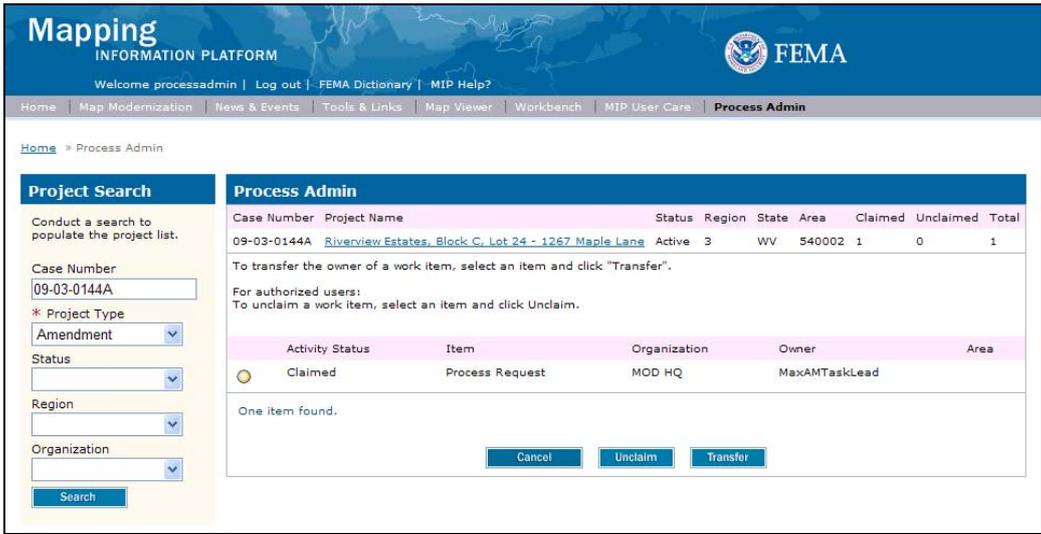

The Work Item list is viewable only if you have the appropriate authorization. With the appropriate authorization you can view the Work Item list by clicking on the number of Claimed Items, Unclaimed Items or Total No. of Items.

Case Number	Project Name	Status	Region	State	Area	Claimed	Unclaimed	Total
09-03-0144A	Riverview Estates, Block C, Lot 24 - 1267 Maple Lane	Active	3	WV	540002	1	0	1

One item found.

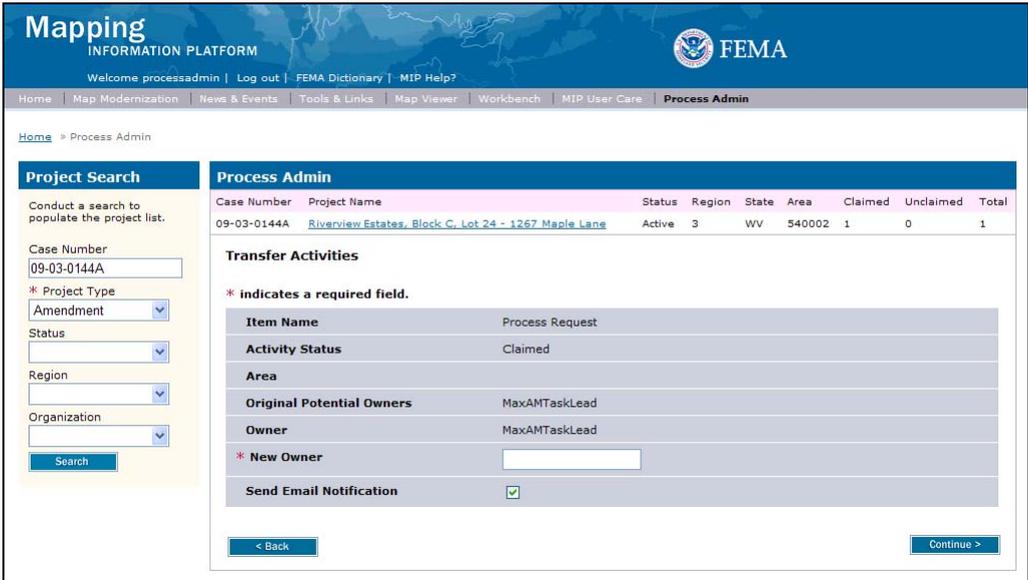

Update Amendment Project Change Project Status

27. Click the Total number link

28. Click the radio button next to the activity to Transfer

29. Click on: 

30. Click to enter the new owner's MIP user ID

31. Keep the Send Email Notification checkbox checked to send an email notification to both the user performing the transfer and the new owner of the task; uncheck the box to not send an email

32. Click on:  to move to the Review Changes screen

The next section outlines the options to update an Amendments or Revisions project.

The screenshot shows the 'Process Admin' section of the Mapping Information Platform. On the left is a 'Project Search' sidebar with fields for Case Number (09-03-0144A), Project Type (Amendment), Status, Region, and Organization. The main area shows a table with one item found:

Case Number	Project Name	Status	Region	State	Area	Claimed	Unclaimed	Total
09-03-0144A	Riverview Estates, Block C, Lot 24 - 1267 Maple Lane	Active	3	WV	540002	1	0	1

Buttons for 'Update Amendment Project' and 'Change Project Status' are visible below the table.

33. Click the radio button next to the case number to update

If a Revisions case, the button is **Update Revision Project**

34. Click on: Update Amendment Project

The screenshot shows the same 'Process Admin' page, but with a modal dialog open. The dialog contains the following text and options:

To update the project, click the section to modify.

- [Reassign Project Resource](#)
- [All Data Received](#)

A 'Cancel' button is also present at the bottom of the dialog.

The options available to update a Revisions or Amendments project are:

- Reassign Project Resources
- All Data Received

35. Click the Reassign Project Resource link

The screenshot shows the 'Process Admin' section of the Mapping Information Platform. On the left is a 'Project Search' sidebar with fields for Case Number (09-03-0144A), Project Type (Amendment), Status, Region, and Organization, along with a Search button. The main area displays a table with one row: Case Number 09-03-0144A, Project Name Riverview Estates, Block C, Lot 24 - 1267 Maple Lane, Status Active, Region 3, State WV, Area 540002, Claimed 1, Unclaimed 0, Total 1. Below the table is the 'Reassign Project Resource' form, which includes a note '* indicates a required field.' and two dropdown menus: '* Project Resource Workgroup' (set to MT 1 Region 3) and '* Resource Name' (set to MaxAMTaskLead). There are 'Cancel' and 'Continue >' buttons at the bottom of the form.

Reassign vs. Transfer:

Reassigning the resource will make all task lead activities appear on the selected resource's Work Item List.

Transferring only transfers one activity to a different user.

36. Use the dropdown boxes to update the Project Resource Workgroup and/or Resource Name

Click  to move forward with the changes and follow the same steps to complete an update as show in this work instruction, steps 20-23.

If no changes were made, click  to return to the update project options

This screenshot shows the same 'Process Admin' page as above, but with a confirmation dialog box overlaid. The dialog has the title 'Reassign Project Resource' and the message 'All Data Received'. It includes a 'Cancel' button at the bottom.

The All Data Received link only appears after a date has been entered in the All Data Received field in the Review Data Received activity.

37. Click the All Data Received link

The screenshot shows the 'Process Admin' page in the Mapping Information Platform. On the left is a 'Project Search' sidebar with fields for Case Number (09-03-0144A), Project Type (Amendment), Status, Region, and Organization. The main area displays a table with one row: Case Number 09-03-0144A, Project Name Riverview Estates, Block C, Lot 24 - 1267 Maple Lane, Status Active, Region 3, State WV, Area 540002, Claimed 1, Unclaimed 0, Total 1. Below the table is the 'All Data Received' section, which contains a form with 'All Data Received Date' set to 12/27/2008 and a green 'Modify' button.

38. Click on:  to update the All Data Received date

This screenshot is similar to the previous one but shows the 'All Data Received' form after clicking 'Modify'. The 'All Data Received Date' field is now a text input containing '12/27/2008' with '(MM/DD/YYYY)' to its right. A green asterisk indicates it is a required field. The green 'Modify' button is now visible at the bottom right of the form.

39. Click to enter a new date

40. Click on:  to save the changes

 Click  to move forward with the changes and follow the same steps to complete an update as show in this work instruction, steps 20-23.

If no changes were made, click  to return to the Update Study Project options

The next section of the simulation outlines the functionality for each link in the Update Study Project section of PA.

 There are two levels of Process Admin users:

1. Study Process Administrator
2. Study Process Administrator Auditor

The only difference is that the Auditor has the Update Study Project button.

41. Click on:

44. Click on: 

Continue >

45. Confirm the change displays and click on:  to move to the Contact List screen

The screenshot shows the 'Process Admin' section of the Mapping Information Platform. On the left is a 'Project Search' sidebar with fields for Case Number (09-04-0033S), Project Type (Study), Status, Region, and Organization, along with a Search button. The main area displays a table with one row for 'Dickson County, TN MapMod07'. Below the table is the 'Project Scoping Information' section, which includes a 'Contact List (Names)' with dropdown menus for various roles: FEMA Headquarters Lead (Dahlia Kasperski), FEMA Regional Engineer (Laura Algeo), FEMA Regional Floodplain Manager (Janice Mitchell), Mapping Partner Project Lead (Daryl Fontenot), NSP Territory Manager, and RMC Manager (Stephen King). Navigation buttons for '< Back' and 'Continue >' are at the bottom.

Tips for the Contact List screen:

Names are not required. Titles can be used in these fields, especially if turnover is likely in the position.

Be consistent with names and titles across all projects. For example, don't use Bob Smith as RSC Manager for this project and Mr. B. Smith in a different project.

FEMA Regional Engineer and FEMA Regional Floodplain Manager are fields that appear in MARS reports.

Click  to move forward with the changes and follow the same steps to complete an update as show in this work instruction, steps 20-23.

If no changes were made, click  to return to the Update Study Project options

The screenshot shows the 'Process Admin' section of the Mapping Information Platform. On the left is a 'Project Search' sidebar with filters for Case Number (09-04-0033S), Project Type (Study), Status, Region, and Organization. The main 'Process Admin' area contains a table with one row: Case Number 09-04-0033S, Project Name [Dickson County, TN MapMod07](#), Status Active, Region 4, State TN, Area multi, Claimed 1, Unclaimed 0, Total 1. Below the table, a message states 'Your transaction has successfully completed.' and a 'Cancel' button is visible.

46. Confirm the transaction successfully completed and click on:  to return to the main screen

This screenshot shows the 'Process Admin' section after clicking the 'Cancel' button. The table now shows Claimed 7 and Unclaimed 7, with a Total of 8. The 'Add an Area/Community' link is now visible in the list of sections to update the project, along with 'Project Scoping Information', 'Data Development Tasks', 'Prelim and Post-Prelim Tasks', and 'Letter Dates'. A 'Cancel' button remains at the bottom.

47. Click the Add an Area/Community link

Note: Additional communities cannot be added to a county-wide project and vice versa; a county-wide project cannot be added to a single or multiple community project. At least one area is required.

48. Use this screen to add additional communities to the project.

Click  to move forward with the changes and follow the same steps to complete an update as show in this work instruction, steps 20-23.

If no changes were made, click  to return to the Update Study Project options

49. Click the Data Development Tasks link
