

Meeting Minutes for May 21, 2015

There are two purposes to these bi-monthly calls:

1. Provide updates that may affect users
2. Provide a forum for MIP Users to ask questions and raise concerns to their peers as well as address challenges around the work studies

Updates:

MIP Release 4.4 Service Pack 6

- The MIP will be receiving an update in early June that will allow Revisions and Amendments Users to select a new product type, Endangered Species Act (ESA) Documentation, during data upload.
- Like other product types, ESA Documentation will be searchable and selectable from the Flood Risk Study Engineering Library.

MIP Browser Configuration

- Recommend using the latest browser versions when using the MIP
- If you are using Internet Explorer 9 or 10:
 - Open Internet Options under the Tools Menu
 - Click the Advanced tab
 - Scroll down to Security and check the following items: "Use TLS 1.1" and "Use TLS 1.2"
 - Click OK to exit Internet Options
- Java and MARS
 - We recommend you use Java Version 8 Update 11 when accessing MARS
 - You can install this version of Java from the [Java Archive](#)
 - You will then need to take actions #1 and #4 from the [Resolving Issues in MARS document](#)

No questions were asked during the call and no users submitted any questions to

outreach@riskmapcds.com.
