

Meeting Minutes for September 17, 2015

There are two purposes to these bi-monthly calls:

1. Provide updates that may affect users
2. Provide a forum for MIP Users to ask questions and raise concerns to their peers as well as address challenges around the work studies

Updates:

MIP Service Pack 8

- An automated J: Drive clean up activity was developed as part of the 2014 MIP File Server Re-Architecture Release
- The automated J: Drive Clean-up activity was paused in July due to the time required to review files before deletion
- The weekend of October 3, 2014, Customer & Data Services (CDS) will be re-activating the process with enhancements to make reviews easier
- With the update, the emails sent to users will include one the following, based on an analysis of the J and K drives:
 - List of filepaths for file located on the J drive but not on the K drive
 - List of filepaths for files located on the J drive that are on the K drive, but have different content
 - Notice that all files are identical between folders in J drive and K drive
- A spreadsheet will be distributed to the Champions and Black Belts listing the inconsistencies between the J and K drives

No questions were asked during the call and no users submitted any questions to outreach@riskmapcds.com
